

# **PWG WIMS CIM Alignment**

## **Conference Call Minutes**

**January 12, 2005**

Craig Whittle - PWG WIMS/CIM Co-chair

Meeting was called to order at approximately 2 p.m. EDT January 12, 2006 by Bill Wagner.

### **Attendees**

Bill Wagner	TIC
Ira McDonald	High North
Rick Landau	Dell
Craig Whittle	Sharp
Harry Lewis	IBM
Lee Farrell	Canon

### **General Discussion**

- Minutes from January 5<sup>th</sup> teleconference accepted (conditional on incorporating change from Ira).
- Multiple CRs to be generated by partitioning work defined in the papers written by Ira/Rick such that they do NOT span classes. The partitioning will be done by change type (e.g, within CIM\_Print group all enums into single CR).
- If a given property (attribute or object) definition spans multiple change types they will be consolidated into a single CR.
- Ira and Rick to do the initial partitioning. Craig can help with the editing of the CRs.
- CR should have a single owner / e-mail as shown in sample CRs Rick provided.
- Output in HTML filtered from MS Word (Save the document [with File->SaveAs] in "Web Page, Filtered" format).
- Joint teleconference with CIM Core now scheduled for 1/20/06 at 9 a.m. during the PWG / CIM Working Group face-to-face meetings.

- Bill Wagner contacted John Crandall to get contact information on the planned concall with CIM Core. Harry to re-send the e-mail.
- We will review the material for the CIM concall during the PWG Plenary.

### **Next Steps / Open Actions:**

- Rick to generate the 2-3 slides to be used joint teleconferences for next Thursday.
- Ira will also revise the white paper. Rick to write introductory text for the CR.
- Next meeting is the face-to-face meeting in Las Vegas next week.
