

IDS Conference Call Minutes

Apr 14, 2014

Meeting was called to order at approximately 11:00am PT April 14, 2014.

Attendees

Ira McDonald	High North
Joe Murdock	Sharp
Alan Sukert	Xerox
Bill Wagner	TIC

Agenda Items

1. Reviewed the PWG IP policy.
2. Action Item Status:
 - #145: Updated IDS Model Spec to be reviewed at this meeting (see below), so considered action to be closed.
 - #146: Updated TNC Binding Spec to be reviewed at this meeting (see below), so considered action to be closed.
 - #149: Need to add new discussion in the Health Attributes spec on correlation attributes that Ira just put in the TNC Binding Spec.
3. Reviewed and discussed the changes to the IDS Model specification found at:
<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-ids-model10-20140410.pdf>
<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-ids-model10-20140410.docx>
 - Ira suggested that the Roles discussion be moved to Section 2.3.
 - The term 'Host' is being overloaded in the document. Revised the discussion of Device and Service roles in Section 6.1 during the meeting to use the terms 'Server' and 'Service Provider' instead.
 - Section 6.4.3: Change the term 'Attributes' back to 'Elements'.
 - In Section 7.1, put in a note about registering the listed alert codes with IANA and be sure to remove the note before the document is published.
 - Additional comments were provided via separate email by Michael Sweet and Alan. Joe will address these comments in this next update to the spec. Ira did suggest that in reference to one of Michael's comments that the term 'identification' should be replaced with 'identification and authentication' since both are necessary.

There was a discussion about prototyping the IDS Model spec. Joe indicated that the spec should be ready for prototyping after the May F2F Meeting. A possible prototyping strategy involving the use of the IPP System Control Service was discussed that would involve referencing the Security Ticket with properties and the associated schema. It was agreed that we should review the schema at the May F2F and that Joe needed to create a set of well-known values for the Security Ticket schema that should also be reviewed at the May F2F.

4. Reviewed and discussed the changes to the TNC Binding specification found at:
<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-idstnc10-20140411.pdf> - clean w/ line numbers
<ftp://ftp.pwg.org/pub/pwg/ids/wd/wd-idstnc10-20140411-rev.pdf>

IDS Conference Call Minutes

Apr 14, 2014

- Line 985: Update this line to match the corresponding text in Line 971.
 - Do a global search to make sure that there is consistent referencing to 'IETF PT-EAP '[RFC7171]'
 - Do a global search for "in case of" as in Line 1136.
5. Reviewed planning for the upcoming May 13-15, 2014 IDS Face-to-Face Meeting. Agreed that the following topics will be discussed:
- Review the latest updates to the IDS-Model Spec
 - Review the latest updates to the TNC Binding Spec
 - Review the well-known values for the Security Ticket schema
 - Review the Security Ticket schema
 - Discuss the latest status of the MFP Protection Profile activity
6. New Action Items:
- Joe: Create a set of well-known values for the Security Ticket schema to be reviewed at the May Face-to-Face Meeting.

Next Steps

- Next Conference Call will be April 28, 2014.
- Next IDS Face-to-Face Meeting is May 13-15, 2014 in Cupertino CA (hosted by Apple).
