40

41 Abstract: This document defines the policy and procedures for managing the PWG temporal and permanent file

42 namespace. This document defines PWG policy and process and does not define an industry standard.

43

44 This version of the PWG Standards Development Process is available electronically at:

45 <ftp://ftp.pwg.org/pub/pwg/informational/pwg-document-namespace-policy10-20040408.pdf>, .doc

47 This document may be copied and furnished to others, and derivative works that comment on, or otherwise explain it
48 or assist in its implementation may be prepared, copied, published and distributed, in whole or in part, without
49 restriction of any kind, provided that the above copyright notice, this paragraph and the title of the Document as
50 referenced below are included on all such copies and derivative works. However, this document itself may not be
51 modified in any way, such as by removing the copyright notice or references to the Printer Working Group, a program
52 of the IEEE-ISTO.

53 Title: The Printer Working Group Document Namespace Policy

54 The IEEE-ISTO and the Printer Working Group DISCLAIM ANY AND ALL WARRANTIES, WHETHER EXPRESS
55 OR IMPLIED INCLUDING (WITHOUT LIMITATION) ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR
56 FITNESS FOR A PARTICULAR PURPOSE.

57 The Printer Working Group, a program of the IEEE-ISTO, reserves the right to make changes to the document
58 without further notice. The document may be updated, replaced or made obsolete by other documents at any time.

59 The IEEE-ISTO and the Printer Working Group, a program of the IEEE-ISTO take no position regarding the validity
60 or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of
61 the technology described in this document or the extent to which any license under such rights might or might not be
62 available; neither does it represent that it has made any effort to identify any such rights.

63 The IEEE-ISTO and the Printer Working Group, a program of the IEEE-ISTO invite any interested party to bring to its
64 attention any copyrights, patents, or patent applications, or other proprietary rights, which may cover technology that
65 may be required to implement the contents of this document. The IEEE-ISTO and its programs shall not be
66 responsible for identifying patents for which a license may be required by a document and/or IEEE-ISTO Industry
67 Group Standard or for conducting inquiries into the legal validity or scope of those patents that are brought to its
68 attention. Inquiries may be submitted to the IEEE-ISTO by e-mail at:

69 info@ieee-isto.org

70 The Printer Working Group acknowledges that the IEEE-ISTO (acting itself or through its designees) is, and shall at
71 all times, be the sole entity that may authorize the use of certification marks, trademarks, or other special
72 designations to indicate compliance with these materials.

73 Use of this document is wholly voluntary. The existence of this document does not imply that there are no other
74 ways to produce, test, measure, purchase, market, or provide other goods and services related to its scope.

75

75 About the IEEE-ISTO

76 The IEEE-ISTO is a not-for-profit corporation offering industry groups an innovative and flexible operational forum
77 and support services. The IEEE Industry Standards and Technology Organization member organizations include
78 printer manufacturers, print server developers, operating system providers, network operating systems providers,
79 network connectivity vendors, and print management application developers. The IEEE-ISTO provides a forum not
80 only to develop standards, but also to facilitate activities that support the implementation and acceptance of
81 standards in the marketplace. The organization is affiliated with the IEEE (<http://www.ieee.org/>) and the IEEE
82 Standards Association (<http://standards.ieee.org/>).

83 For additional information regarding the IEEE-ISTO and its industry programs visit <http://www.ieee-isto.org>.

84 About the Printer Working Group

85 The Printer Working Group (or PWG) is a Program of the IEEE-ISTO. All references to the PWG in this document
86 implicitly mean "The Printer Working Group, a Program of the IEEE ISTO." The PWG is chartered to make printers
87 and the applications and operating systems supporting them work together better. In order to meet this objective, the
88 PWG will document the results of their work as open standards that define print related protocols, interfaces, data
89 models, procedures and conventions. Printer manufacturers and vendors of printer related software would benefit
90 from the interoperability provided by voluntary conformance to these standards.

91 In general, a PWG standard is a specification that is stable, well understood, and is technically competent, has
92 multiple, independent and interoperable implementations with substantial operational experience, and enjoys
93 significant public support.
