

MFD Working Group

2008-09-18 Conference Call Minutes

1. Attendees

Lee Farrell (Canon), Nancy Chen (Okidata), Bill Wagner (TIC), Glenn Petrie (Epson), Pete Zehler (Xerox)

2. Agenda

1. Identify Minute Taker
2. Approval of minutes from 9/4 teleconference
3. Review latest Resource Service Specification
4. Next Steps

3. Identify Minutes Taker

Pete Zehler

4. Accept Previous Minutes

There were no objections to the previous Minutes.

5. Review latest Resource Service Specification.

1. (section 3.3.2) Executable resources are included in Resource Service
2. (general) We will not include a description of the execution environment required by the executable resource.
3. (section 3.2) We need a better description of software and firmware. The definitions will be obtained from IDS.
4. (3.3.2 item 4 and 3.2) We need to remove executable resources from out of scope. We a definition of Document Data. The definition can be obtained from Scan Service specification.
5. (figure 1) Clarify difference between Resource Object and associated Resource data.
6. (line 260) remove reference to eventing and “need”.
7. (line 286) Add ExpirationDate and DateOfLastUpdate to Resource object.
 - a. The schema used a Status element DateTimeAtLastUpdate for consistency with similar schema elements.
 - b. The schema used a Description element DateTimeOfExpiration for consistency with similar elements.
8. (line 286) Need to improve representation of the format of the document data for the resource. It can be represented either by a MIME type (DocumentFormat) or a namespace for the schema that the document can be validated against (ResourceNamespace)
 - a. I currently added an element (ResourceFormat) that contains a choice of DocumentFormat or ResourceNamespace.
9. Added ElementsNaturalLanguage as a Description element.
10. Update Storage’s StorageType with values from Host Resources MIB.
11. Add a StorageType to represent external storage.
